

Undergraduate Thesis

Student's Evaluation of Research Experience

To be completed at end of work experience and turned in with written thesis.

Name of supervisor _____

Address and Phone _____

No. _____

Date of employment _____

Brief description of project

1. Discuss briefly new skills and/or techniques learned doing this project.

2. Did you feel the experience was valuable in relation to past academic studies? Did the experience dictate other academics that need to be taken in the future?

3. Were you allowed to work independently to be able to present your knowledge and skills?

4. Was your supervisor initially helpful when setting up experiments? Was the supervisor available for discussion and questions when needed?

5. Did you take initiative to work beyond or add to work given to you by your supervisor?

6. Comment on any other areas not covered by the above.
